

Series 150 Overshot

The Wellpro Group Series 150 Overshot is the most versatile and commonly used fishing tool in the industry.

It is designed to externally engage, pack-off and retrieve various types of fish. It is engineered to withstand heavy pulling, torsional applications and jarring strains without damaging or distorting the tool or the fish.

The 150's rugged construction, simplicity and strength make it the standard choice amongst all external catch fishing tools.

Specifications and features

- High Tensile strength suitable for heavy duty jarring operations
- Can be dressed with various grapple sizes

Tool Size (in)	2.625	3.125	3.625	3.875
End Connection	1 - 1/2" AMMT	2 - 3/8" PAC	2 - 3/8" PAC	2 - 3/8" REG
Tensile Strength Spiral (lbs)	101,600	193,500	193,500	155,100
Tensile Strength basket (lbs)	86,400	173,200	157,400	144,200
Max Catch range (in)	2.125	2.375	2.875	3.125
